Report of Field Visit to Om Pharmaceuticals Ltd.

Date of Visit: May 7, 2026

Place: Om Pharmaceuticals Ltd Company, Bengaluru

Organizing Department: Department of Rasa Shastra and Bhaishajya Kalpana
Institution: Sushruta Ayurvedic Medical College and Hospital.

The Department of Rasa Shastra and Bhaishajya Kalpana organized a one-day industrial visit to Om Pharmaceuticals Ltd. for students to gain practical exposure to large-scale Ayurvedic drug manufacturing and quality control standards.

To observe the large-scale manufacturing processes of classical and proprietary Ayurvedic formulations.

To understand the practical application of Good Manufacturing Practices (GMP).

To study the instrumentation used in modern pharmaceutical production.

During the visit, we were guided through several key sections of the facility:

1. Raw Material Section: Observed the scientific identification, sorting, and storage of raw herbs and minerals.
2. Production Unit: Witnessed the operation of heavy machinery for processes like Svarasa extraction, Kvatha preparation, and the preparation of Vati (tablets) and Asava-Arishta-kadha.
3. Quality Control (QC) Lab: Learned about the rigorous testing protocols, including analytical chemistry and microbial testing, to ensure the safety and efficacy of the final products.
4. Packaging and Labelling: Observed the automated packaging lines designed to maintain hygiene and prevent contamination.

The visit provided a vital link between our theoretical knowledge of the Samhita and modern industrial practices.

It was an invaluable experience that highlighted the importance of standardization in the global reach of Ayurveda.
